B. A maximum deviation of 45% is allowed for local tournaments if required by terrain available.

C. The targets shall be equally spaced a minimum of three yards apart with up to five yards allowed, measured from the center of the gold to the center of the gold of the adjacent target.

- D.** The target face shall be inclined away from the shooting line at an angle from 12 to 18 degrees from the vertical.
- E.** Range distances shall be accurately measured from a point on the ground perpendicular to the center of the gold on the target.
- F.** Target lines, shooting lines, or range lines shall be plainly and accurately marked on the ground, and shall be not more than six inches in width. Target lines or shooting lines may be arranged to require the shooters to move forward from the longest range to lesser distances while the targets remain stationary, or to require the targets to be brought forward from longer to lesser distances while the shooter uses a stationary line.
- G.** Target lanes shall be suitably and plainly marked either by centerlines, or by lines designating the side boundaries of each lane. Pegs, chalk lines, trenches, or mowed strips are suitable markings. If delineation of target lanes is not practical, local tournaments may deviate from this rule.
- H.** There shall be a minimum of twenty yards clear space behind the targets, which may be reduced by a suitable bunker or backstop. Spectators, participants or pedestrians shall not be allowed behind the targets while shooting is in progress, or even beyond twenty yards if there is the slightest possibility of being struck by the wildest arrow.
- I.** There shall be a clear area of at least twenty yards on each side of the field as a safety lane.

XV. THE TARGET BUTT AND TARGET BACKSTOP:

- B.** Target backstops shall be securely anchored to the ground to prevent accidental toppling.

XVII. SHOOTING RULES:

- A.** An END consists of six consecutive arrows, shot within a maximum allowed time of five minutes.
- B.** A COMPLETED END is when both the A & B lines have shot all six of their arrows. A Field Official shall signal the start and finish of each line and each end. Unless this signal is immediately challenged by those archers who have not released six arrows, the end shall be considered complete, and the archer shall have no recourse to shooting additional arrows.
- C.** A PERFECT END is six arrows shot consecutively in the gold during one end.
- D.** Any kind of a bow may be used, providing it is shot by holding it in one hand and the string in the other, without mechanical assistance of support which in the opinion of the tournament officials would give undue advantage over other competitors. This does not apply to the Adaptive divisions.
- E.** Any kind of arrows may be used provided they do not, in the opinion of the tournament officials, damage the targets unreasonably.
- F.** Any type of point-of-aim may be used which does not protrude more than six inches above the ground and does not interfere with shooting or scoring.
- G.** Any type of artificial spotting aid may be used, provided it does not interfere with other competitors.
- H.** Foot markers may be left on the shooting line during the round provided they are embedded in the turf and do not extend more than one-half (1/2) inch above the ground.
- I.** Ground quivers may be placed on the shooting line while the archer is in the process of shooting but must be removed to the tackle area while others are shooting and during the scoring interval.
- J.** Initial target assignments may be made according to any system designated by the tournament officials. There shall not be less than three nor more than five archers assigned to each target in use, and four is customary.

- O.** If an archer shoots less than six arrows in one end, he may shoot the remaining arrows if the omission is discovered before the end is officially completed; otherwise they shall score as misses.

- R.** If a target falls before an end is scored, that end shall be reshot by all archers on that target.

- T.** If an arrow should hang from the target face, shooting shall be interrupted and a Field Official shall immediately reinsert the arrow in its proper place in the scoring face.
- U.** Any archer should call to the attention of the Field Officials any rule infractions, unsportsmanlike or unseemly conduct, or ANY SAFETY HAZARDS. The Field Officials are empowered to take such steps as their judgment indicates to correct the situation, including warning, scoring penalties, and even expulsion from the tournament in severe cases.
- V.** Half of the archers assigned to each target (or the closest possible number to half) shall take position and shoot six arrows, and will be considered the A line. They shall then retire and the remaining archers assigned shall shoot six arrows; they will be then be known as the B line. A and B lines will then alternate shooting first.
